## "BOLLIER DOWNS"

There are a lot of treasures tucked away in the Mary Valley and Bollier Downs is one of those treasures. You can't see the property from the road, but that's a good thing!

A small bridge over Coonoon Gibber Creek gives access to the property and the creek forms the western boundary for well over 1 Km. There's a long internal driveway, through the creek flats, to the homestead set on a rise towards the middle of Bollier Downs. Because the homestead has a commanding view, you can see a visitor long before they arrive at the homestead. You will have total privacy, you can't see out and no-one can see you.

From the wide front veranda overlooking the property, an entry leads you to a large open plan living room where the open fire place is a feature. It's a big space, and with access to three separate veranda sections, there are heaps of living/entertaining options. The timber kitchen is set into the corner of the living space and is well appointed with stainless steel appliances that include a 5-burner gas stove, and dishwasher. There is an island bench and a walk-through pantry with a surprise. A circular stairway to the wine cellar, with its own tasting room! (now that's dangerous).

A separate living room, currently used as formal dining, adds to the living/entertaining options. There are 4 bedroom, all with external access, and one bathroom that features a freestanding bath and a separate shower & toilet. The homestead is set in established grounds and runs on a state of the art stand alone solar power system, so you will never have a power bill again.
